I did; I was just joking. Poorly at that!!

?

(still, please do call me Short Straw McGraw from now on)

Epa will send something around after the call.

Since you drew the short straw last call. Does someone else want to do the update?

Pat

OK, yes, that sounds good. I will say that you are sending around after the call, Pat? Also, which of us is giving the update on the Work Group?

Looks good. I would suggest you introduce it on the call and we can send it around afterwards.

We have already gotten some responses from the input sheets we sent around to the workgroup members.

Pat

Looks great, do we have time to take the two step approach? Given we discussed this already with the full Education and Outreach group, perhaps we just send it out tomorrow to the full group?

Great job on the survey, I think it will give us some great material to work with.

Subject: QUESTION: SurveyMonkey for Collection of Edu Outreach Info

Hey Team,

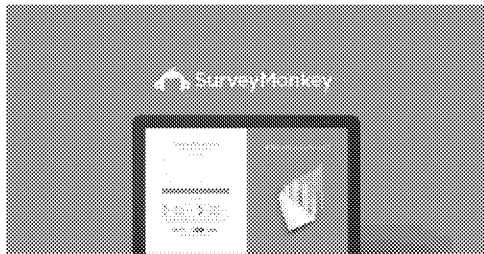

Here is the first draft of the Survey Monkey to capture the information that we identified in both our small and large group calls. Our thought is that we would take edits from this small group in the next day or two and then send out to the larger Education and Outreach group before the Network call this Friday, using our time during that call to garner wider participation for the survey.

What does this group think about the plan?

Please let me know if you have edits or thoughts in this email thread.

Thanks,
Dylan and Trina
